Experience

Full Stack Developer/ Software Engineer
AVION SCHOOL | July 2023 - Present
- At AVION School, I'm honing my skills as a Full Stack Developer and Software Engineer, actively engaged in building real-world projects and mastering a diverse set of technologies.
- **Responsibilities:**
  - Collaborating with teammates to develop and deploy web applications using modern technologies and best practices.
  - Implementing responsive and visually appealing user interfaces with TailwindCSS, CSS, and JavaScript.
  - Leveraging the power of React, React Router, and Vite to create dynamic and interactive front-end experiences.
  - Utilizing Ruby on Rails and SQL to develop robust back-end solutions, with PostgreSQL as the preferred database management system.
- **Technologies used:**
  - Frontend: TailwindCSS,CSS, Javascript,React,React Router,ContextAPI,Vite
  - Testing: Jest,Vitest,Postman.
  - Backend: Ruby,Ruby on Rails,SQL, Postgresql

Account Officer
CARD INC. | May 2022 - March 2023
- We specialize in member account management, offering comprehensive services to ensure the financial well-being of our clients. Our daily operations involve diligent payment collection from members on weekdays, ensuring timely processing and accurate record-keeping.
- In addition to payment collection, we provide a range of financial services tailored to meet the diverse needs of our members. This includes facilitating withdrawals, deposits, and loan management, all handled with the utmost care and attention to detail.
- Our goal is to empower our members with convenient and efficient financial solutions, supported by personalized assistance and expert guidance. Whether it's managing daily transactions or planning for long-term financial goals, we are dedicated to delivering exceptional service and value to our clients

Recent Projects

Slack App Clone(Avion Bootcamp Version)
- ? https://slack-app-avion-version-batch-31.vercel.app/
- We built a version of the Slack app in our Avion School bootcamp, using the Avion School API. It allows users to handle account tasks, create channels, send messages, and access extra features.
- Technologies used: TailwindCSS, CSS, JS,React,Vitest, Vite,React Router,Postman, Jest

Banking and Budget Tracker App

? https://banking-and-budget-app.vercel.app

- This Simple Bank App, developed during our Avion School Bootcamp, offers essential functionalities for managing finances. Users can easily handle withdrawals, deposits, and money transfers, as well as make purchases and track expenses. Additionally, the app provides a transaction history, including loan transactions, and displays the account creation date for reference.
- Technologies used: TailwindCSS, CSS, JS, React, Vite, React Router

Journal App

? journalapp.render.com

- This app is a comprehensive task and category management platform designed to streamline the organization of daily tasks and projects. It allows users to create a personalized account, within which they can craft, modify, and categorize tasks for enhanced productivity and task tracking.
- Technologies used: TailwindCSS, CSS, Ruby, Ruby on Rails, Postgresql
